

THE
LONDON, EDINBURGH, AND DUBLIN
PHILOSOPHICAL MAGAZINE
AND
JOURNAL OF SCIENCE.

CONDUCTED BY

SIR OLIVER JOSEPH LODGE, D.Sc., LL.D., F.R.S.
SIR JOSEPH JOHN THOMSON, O.M., M.A., Sc.D., LL.D., F.R.S
JOHN JOLY, M.A., D.Sc., F.R.S., F.G.S.
RICHARD TAUNTON FRANCIS, F.R.S.E.

AND

WILLIAM FRANCIS, F.L.S.

"Nec aranearum sane textus ideo melior quia ex se filia gignunt, nec noster
vilior quia ex alienis libamus ut apes." *JUST. LIPS. Polit. lib. i. cap. 1. Not.*

VOL. I.—SEVENTH SERIES.

JANUARY—JUNE 1926.

LONDON:

TAYLOR AND FRANCIS, RED LION COURT, FLEET STREET.
SOLD BY SMITH AND SON, GLASGOW;—HODGES, FIGGIS, AND CO., DUBLIN;—
AND VEUVE J. BOYVEAU, PARIS.

"Meditationis est perscrutari occulta; contemplationis est admirari perspicua Admiratio generat questionem, quæstio investigationem, investigatio inventionem."—*Hugo de S. Victore*.

—“ Cur spirent venti, cur terra dehiscat,
Cur mare turgescat, pelago cur tantus amaror,
Cur caput obscura Phoebus ferrugine condat,
Quid toties diros cogat flagrare cometas,
Quid pariat nubes, veniant cur fulmina ccelo,
Quo micet igne Iris, superos quis conciat orbes
Tam vario motu.”

J. B. Pinelli ad Mazonium.

CONTENTS OF VOL. I.

(SEVENTH SERIES).

NUMBER I.—JANUARY 1926.

	Page
Dr. J. Chadwick and Mr. K. G. Emeléus on the δ -Rays produced by α -Particles in Different Gases. (Plates I. & II.)	1
Prof. W. M. Thornton on Models of Electron Structure, Quantum Action, and the Gravitational Field	13
Dr. H. Rinde on a Method for Determination of the Adsorption of Ions on Colloidal Particles by means of Donnan's Membrane Equilibrium Theory	32
Mr. M. H. Belz on the Distribution of Energy in the Continuous X-ray Spectrum	50
Prof. H. T. H. Piaggio and Mr. J. Critchlow on a supposed Relativity Method of Determining the Size of a Gravitating Particle..	67
Messrs. R. V. Southwell and H. J. Gough on the Concentration of Stress in the Neighbourhood of a Small Spherical Flaw; and on the Propagation of Fatigue Fractures in "Statistically Isotropic" Materials	71
Dr. R. D. Rusk on the Absorption of Hydrogen in Potassium Vapour Arcs.	97
Mr. H. Rowe on the Adsorption of Gases by Activated Charcoal at Very Low Pressures.—I. At Air Temperature	109
Dr. E. E. Witmer on Fraunhofer Diffraction Phenomena for a General Polygonal Aperture. (Plate III.)	132
Prof. H. R. Hassé on Langevin's Theory of Ionic Mobility	139
Prof. C. G. Darwin on Mechanical Models for the Zeeman Effect ..	161
Dr. D. M. Dennison on the Analysis of Certain Molecular Spectra ..	195
Prof. E. F. Burton on the Relation between Temperature and Minimum Sparking Potential	219
Mr. G. L. Addenbrooke on the Non-Metallic Elements. Connexions between their Dielectric and other Physical Properties.—Part II.	225
Prof. A. J. Sutton Pippard and Mr. G. H. W. Clifford on an Experimental Investigation of the Applicability of Saint-Venant's Principle to the case of Frameworks having Redundant Bracing Members	243
Prof. A. J. Sutton Pippard on the Effect of Curved Members upon the Elastic Properties of a Framework	254
Mrs. T. Ehrenfest-Afanassjewa on Dimensional Analysis viewed from the Standpoint of the Theory of Similitudes	257
Mr. H. E. H. Wrinch and Dr. D. M. Wrinch on the Roots of Hypergeometric Functions with a numerator and four denominators ..	272
Mr. J. T. Combridge on the Field of a Thick Spherical Shell on Einstein's Theory of Relativity	276
Prof. M. Saha and Mr. R. Sur on the Absolute Value of Entropy ..	279

NUMBER II.—FEBRUARY.

Mr. W. G. Burgers : An X-Ray Examination of <i>i</i> -Erythritol	289
Mr. E. T. Bell on certain Functions of Two Variables and their Integrals related to the Bessel Coefficients.	304
Mr. R. Thoræus on the X-Ray Spectra of the Lower Elements. (Plate IV.)	312
Prof. C. M. Sogani on the Optical Properties of Chromatic Emulsions. (Plate V.)	321
Prof. W. T. David on the Pressures developed on Explosion of Gaseous Mixtures at High Densities	334
Prof. W. B. Morton on the Electrification of Two Intersecting Planes	337
Dr. G. W. C. Kaye on an Improved All-Metal Mercury-Vapour Pump	349
Mr. C. E. Wynn-Williams on an Investigation into the Theory of the "Three-Point Gap."	353
Mr. F. J. W. Whipple on the best Linear Relation connecting Three Variables	378
Prof. L. Kahlenberg on the Separation of Crystalloids from one another by Dialysis	385
Dr. Guy Barr on the Air-Bubble Viscometer. (Plate VI.)	395
Mr. W. H. B. Cameron on the Production of some Spectra of Carbon, Oxygen, and Nitrogen in the Presence of Neon.	405
Dr. P. J. Nolan on the Character of the Ionization produced by Spraying Water	417
Mr. C. D. Callis on Measurement of the Resistance of a Condenser at Radio Frequency	428
Mr. N. K. Sur on the Water-Spark Absorption Spectrum of Iron. (Plate VII.)	433
Messrs. N. K. Sur and K. Majumdar on the Absorption Spectra of Aluminium and Cobalt	451
Mr. F. E. Relton on the Determination of Young's Modulus from Compression Tests on Circular Cylinders	463
Mr. R. G. Lunnon on Gas Flow and Pressure Changes in Gases under Electric Discharge	482
Dr. K. R. Ramanathan and Mr. N. G. Srinivasan on the Optical Anisotropy of some simple Inorganic Gaseous Compounds	491
Mr. R. C. Smith : Some Considerations of the Reaction Constant Equation, and a Simple Method of determining the End Point	496
Mr. E. J. Lorenz on the so-called Positive Photo-Electric Emission (Inverse Effect), and the Reality of the Sub-Electron	499
Mr. L. L. Bircumshaw on the Solubility of Hydrogen in Tin and Aluminium at High Temperatures,	510
Mr. D. Brunt on Energy in the Earth's Atmosphere	523
Mr. W. Rule on the Variation of the E.M.F. of a Photoactive Cell, containing a Fluorescent Electrolyte, when the Amount of Fluorescent Material in Solution is Varied	532
Prof. C. G. Barkla and Miss G. L. Mackenzie on the Superposition of X-Rays and on Scattering. The J Phenomenon (Part III).	542
The Research Staff of the General Electric Co., Ltd., on Properties of the Generalized Artificial Line. (Work conducted by A. C. Bartlett)	553
Proceedings of the Geological Society :—	
Mr. E. B. Bailey on the Tertiary Igneous Geology of the Island of Mull	558
Dr. E. Spencer on some Occurrences of Spherulitic Siderite and other Carbonates in Sediments	559

NUMBER III.—MARCH.

	Page
Mr. I. R. McHaffie on the Effect of the Presence of an "Indifferent" Gas on the Concentration and Activity of a Vapour in Equilibrium with a Condensed Phase or System of Condensed Phases	561
Prof. W. F. G. Swann on the Pressure of Radiation	584
Dr. H. Gregory and Mr. C. T. Archer on the Variation of the Thermal Conductivity of Gases with Pressure	593
Mr. T. Carlton Sutton on the Nature of the "Critical Increment" of Chemical Action.....	606
The Research Staff of the General Electric Co., Ltd., on the Emission of Electrons under the Influence of Intense Electric Fields. (Work conducted by H. S. Gossling)	609
Messrs. P. F. Foster and J. F. Baker on the Determination of Minima-Maxima Forces in certain Problems of Dynamic Balance.	635
Mr. R. K. Schofield: An Experimental Verification of Gibbs' Adsorption Equation by observing the Adsorption by Mercury of its own Ions from Solution, and its bearing on Nernst's Theory of Electrode Potential.....	641
Mr. H. Rowe on Adsorption of Carbon Dioxide by Activated Coconut Charcoal	659
Mr. W. Burnside on the "Hypothetical Infinite Population" of Theoretical Statistics	670
Mr. R. C. J. Howland on the Vibrations of Rods and Shafts with Tension or End-Thrust.....	674
Dr. W. E. Curtis on New Series in the Secondary Hydrogen Spectrum	695
Proceedings of the Geological Society:—	
Mr. N. E. Odell's Preliminary Notes on the Geology of the Eastern Parts of Central Spitsbergen	700
Dr. K. S. Sandford on the Geology of North-East Land (Spitsbergen)	702
Intelligence and Miscellaneous Articles:—	
Messrs. L. Bloch and E. Bloch on the Water-Spark Absorption Spectrum of Iron	704

NUMBER IV.—APRIL.

Prof. F. H. Newman on the Low Voltage Arc in Cæsium Vapour. (Plate VIII.)	705
Prof. G. E. M. Jauncey and Mr. O. K. De Foe on the Separation of the Modified and Unmodified Scattering Coefficients of X-Rays..	711
Prof. F. H. Newman on Enhanced Lines produced by the Interrupted Arc in Sodium and Potassium Vapours. (Plate IX.)	721
Dr. R. A. Morton and Dr. R. W. Riding on Refractivity, Ionization Potentials, and Absorption Spectra	726
Dr. J. G. Frayne and Dr. A. W. Smith on the Absorption Spectra of the Vapours of Zn, Cd, Pb, Sn, Bi, and Sb. (Plate X.)	732
Mr. V. H. L. Searle on the Wave Form of the Current in an Electrically Maintained Tuning-fork Circuit. (Plate XI.)	738
Prof. A. Brown on the Application of the Rigorous Quotient Theorem.	748
Prof. J. K. Robertson on a Method for Exciting Spectra of Certain Metals. (Plate XII.)	752
Dr. N. R. Campbell on the Evacuation of Carbon Dioxide and Water	762

	Page
Messrs. C. R. Burch and N. R. Davis on the Quantitative Theory of Induction Heating	768
Mr. H. R. Kempe on the Mechanical Solution of some Geometrical Problems	783
Dr. A. C. Crehore on the Forces of Chemical Affinity. A Study of Crystal Structure in the Light of the New Atomic Models.....	786
Mr. G. Ising on a Natural Limit for the Sensibility of Galvanometers.	827
Mr. A. W. Barton on the Efficiency of the β -ray Recoil of Radium C from Radium B	835
Mr. R. H. Fowler on the Statistical Mechanics of Assemblies of Ionized Atoms and Electrons	845
Mr. R. N. Ghosh on the Choice of Striking Point in the Pianoforte String. (Plate XIII.)	875
Mr. R. Fraser on the Refractive Index of Gases and Vapours in a Magnetic Field.	885
Prof. M. Saha and Mr. R. K. Sur on Entropy of Radiation. II.	890
Notices respecting New Books :—	
Prof. J. Joly's The Surface-History of the Earth	893
Prof. R. A. Millikan's The Electron	894
Prof. W. G. McM. Lewis's A System of Physical Chemistry. Vol. II. Thermodynamics	894
Sir A. Schuster and Prof. C. H. Lees's Exercises in Practical Physics.....	894
P. Appell, Sur une forme générale des équations de la dynamique	895
G. Valiron, Fonctions entières et fonctions méromorphes.....	895
P. Appell, Séries hypergéométriques de plusieurs variables, polynomes d'Hermite et autres fonctions sphériques de l'hyperespace	895
Proceedings of the Geological Society :—	
Mr. R. Dixon Oldham on the Depth of Origin of Earthquakes.	896

NUMBER V.—MAY.

Prof. L. Bragg, Prof. C. G. Darwin, and Mr. R. W. James on the Intensity of Reflexion of X-Rays by Crystals	897
Dr. H. Jeffreys on Professor Joly's Theory of Earth History.....	923
Prof. J. Joly on the Surface History of the Earth.....	932
Prof. F. H. Newman on the Sodium Arc in a Vacuum. (Plate XIV.)	940
Dr. D. A. Fairweather on the Melting-points of the Normal Saturated Dibasic Acids	944
Mr. O. Free: Investigation of the Zirconium in Colorado Pitch-blende. (Plate XV.)	950
Prof. G. P. Thomson on the Scattering of Positive Rays by Hydrogen. (Plate XVI.).....	961
Mr. A. E. Ruark on the Fine Structure and Zeeman Effect of Complex Mercury Lines	977
Mr. A. Satô on Dilatometric Investigation of the A_3 and A_4 Transformations in Pure Iron	996
Mr. W. Scutt on Germanium in a British Mineral	1007
Dr. R. Schlapp on the Reflexion of X-Rays from Crystals	1009
Prof. M. Saha and Mr. R. K. Sur on the Influence of Radiation on Ionization Equilibrium.....	1025
Prof. J. R. Partington and Mr. J. F. J. Rule on the Dielectric Constants of Benzene Solutions.	1035

CONTENTS OF VOL. I.—SEVENTH SERIES.

vii

Page

Dr. B. C. Laws and Mr. A. O. Allen on Lines of Maximum Principal Stress in Thin Mild Steel Plates of Rectangular Shape fixed along the Edges and uniformly loaded.....	1039
Mr. H. Rowe on the Adsorption of Gases by Activated Charcoal at Very Low Pressures.—II. At -183°C	1042
Dr. A. Holmes on Estimates of Geological Time, with Special Reference to Thorium Minerals and Uranium Haloes.....	1055
Mr. G. Subrahmaniam on Variation of Logarithmic Decrement with Amplitude and Viscosity of Metals.—III.....	1074
Mr. J. S. McPetrie on the Time of Excitation of Hydrogen Atoms.....	1082
Messrs. H. T. Tizard and D. R. Pye on Ignition of Gases by Sudden Compression. (Plate XVII.)	1094
Dr. Norman Campbell on Time and Chance.	1106
Mr. J. A. C. Teegan on a Thermionic Valve Method of measuring the Velocity of Air-currents of Low Velocity in Pipes. (Plate XVIII.)	1117
Dr. G. N. Antonoff on Evidence of Molecular Changes in Vapours and Liquids	1121
Dr. Norman Campbell on Dimensional Analysis	1145
Prof. L. Vegard on Results of Crystal Analysis.....	1151
Dr. L. C. Jackson on the Orientation of the Oxygen Molecule in a Magnetic Field.....	1193
Mr. C. L. R. E. Menges on the True Signification of Fizeau-Zeeman's Experiments	1198
Messrs. R. W. James and J. T. Randall on the Scattering Powers of Calcium and Fluorine for X-Rays	1202
Notices respecting New Books:—	
Mr. W. G. Brown's Higher Mathematics for Students of Engineering and Science	1215
Dr. L. Silberstein's Vectorial Mechanics	1215
Mr. E. W. Hobson's The Theory of Functions of a Real Variable and The Theory of Fourier's Series	1215
Mr. C. E. Cullis's Matrices and Determinoids	1216
Mr. T. J. I'A. Bromwich's An Introduction to the Theory of Infinite Series	1216
Mr. H. F. Baker's Principles of Geometry. Vol. IV. Higher Geometry	1216

NUMBER VI.—JUNE.

Messrs. J. M. Nuttall and E. J. Williams on the β -Rays associated with Scattered X-Rays. (Plates XIX. & XX.)	1217
Mr. W. G. Green on the Effect of Axial Restraint on the Stress in a Rotating Disk.....	1236
Messrs. P. N. Ghosh, D. Banerji, and S. K. Datta: Determination of Surface-Tension by the Method of Ripples. (Plate XXI.) ..	1252
Dr. G. N. Antonoff on Surface-Tension of Solids.....	1258
Mr. H. P. Walmsley on the Conductivity of Clouds dispersed from an Arc	1266
Messrs. A. L. McAulay and F. P. Bowen on some Experiments on Hydrogen Over-potential at a Mercury Cathode and a Discussion of their Bearing on Current Theories	1282
Mr. W. F. Sedgwick : Note on the Second Law of Thermodynamics.	1286
Index	1289

P L A T E S.

- I. & II. Illustrative of Dr. J. Chadwick and Mr. K. G. Emeléus's Paper on the δ -Rays produced by α -Particles in different Gases.
- III. Illustrative of Dr. Enos Witmer's Paper on Fraunhofer Diffraction Phenomena for a General Polygonal Aperture.
- IV. Illustrative of Mr. R. Thoræus's Paper on the X-Ray Spectra of the Lower Elements.
- V. Illustrative of Prof. C. M. Sogani's Paper on the Optical Properties of Chromatic Emulsions.
- VI. Illustrative of Dr. Guy Barr's Paper on the Air-Bubble Viscometer.
- VII. Illustrative of Mr. R. Sur's Paper on the Water-Spark Absorption Spectrum of Iron.
- VIII. Illustrative of Prof. F. H. Newman's Paper on the Low Voltage Arc in Caesium Vapour.
- IX. Illustrative of Prof. F. H. Newman's Paper on Enhanced Lines produced by the Interrupted Arc in Sodium and Potassium Vapours.
- X. Illustrative of Dr. J. G. Frayne and Dr. A. W. Smith's Paper on the Absorption Spectra of the Vapours of Zn, Cd, Pb, Sn, Bi, and Sb.
- XI. Illustrative of Mr. V. H. L. Searle's Paper on the Wave Form of the Current in an Electrically Maintained Tuning-fork Circuit.
- XII. Illustrative of Prof. J. K. Robertson's Paper on a Method for Exciting Spectra of Certain Metals.
- XIII. Illustrative of Mr. R. N. Ghosh's Paper on the Choice of Striking Point in the Pianoforte String.
- XIV. Illustrative of Prof. F. H. Newman's Paper on the Sodium Arc in a Vacuum.
- XV. Illustrative of Mr. O. Free's Paper on Investigation of the Zirconium in Colorado Pitchblende
- XVI. Illustrative of Prof. G. P. Thomson's Paper on the Scattering of Positive Rays by Hydrogen.
- XVII. Illustrative of Messrs. H. T. Tizard and D. R. Pye's Paper on the Ignition of Gases by Sudden Compression.
- XVIII. Illustrative of Mr. J. A. C. Teegan's Paper on a Thermionic Valve Method of measuring the Velocity of Air-currents of Low Velocity in Pipes.
- XIX. & XX. Illustrative of Messrs. J. M. Nuttall and E. J. Williams's Paper on the β -Rays associated with Scattered X-Rays.
- XXI. Illustrative of Messrs. P. N. Ghosh, D. Banerji, and S. K. Datta's Paper on Determination of Surface-Tension by the Method of Ripples.
